

polymers and neutron scattering pdf

Polymers are of two types: naturally occurring and synthetic or man made. Natural polymeric materials such as hemp, shellac, amber, wool, silk and natural rubber have been used for centuries.

Polymer - Wikipedia

The NIST Center for Neutron Research is a national resource for industry, universities, and government agencies.

NIST Center for Neutron Research | NIST

Powder diffraction is a scientific technique using X-ray, neutron, or electron diffraction on powder or microcrystalline samples for structural characterization of materials. An instrument dedicated to performing such powder measurements is called a powder diffractometer.

1. Introduction. The extensive use of nanotechnology in various spheres of science and technology has led to the release of nanoparticles (NPs) from various applications (e.g., dyes, cosmetics, catalysts, print materials, food, and lacquers).

Measurement of nanoparticles by light-scattering techniques

Geant 4 is a software toolkit for the simulation of the passage of particles through matter. It is used by a large number of experiments and projects in a variety of application domains, including high energy physics, astrophysics and space science, medical physics and radiation protection.
