The Kansas Health Education Standards committee feels strongly that health education for Kansas students should be implemented throughout grades K-12 and we encourage teachers to dialogue with their administration regarding ways to strengthen health education in Kansas schools.

Kansas Model Curricular Standards for Health Education

Introduction The ability to communicate ideas effectively is increasingly recognized as critical to the success of the healthcare system. Effective communication is required not only for successful interactions between individuals and their health care providers (1) but also between health care providers themselves.

Communication in Health Care: Considerations and

Health education is a profession of educating people about health. Areas within this profession encompass environmental health, physical health, social health, emotional health, intellectual health, and spiritual health, as well as sexual and reproductive health education.
